

BLANKET WARMERS

Digital Control Panel

Lakeside Blanket Warmers are sized to meet your room size – compact, space saving to full size, large capacity. All three models are mobile – the warmer is where you need it, not down the hall, around the corner and many steps away from your resident. The design features of the Warming Cabinets reflect ease of use and operation, consistent reliability, minimal routine maintenance and high quality stainless steel construction for years of uninterrupted use.

STANDARD FEATURES

- Easy operation with state-of-the-art digital control panel. Simply turn the unit on and set the desired temperature. Temperature range is 90°F – 240°F Readings in both Fahrenheit and Celsius
- Fan placement and heating elements are located at the top of the cabinet. This allows easy access to the lint filter, fan, temperature probe and control unit. Additionally, the entire cabinet cavity can be used for product – no wasted space
- Fast Warm Times – just two to six hours depending on the load. Preheat time is approximately 15-20 minutes and recovery time is approximately 2 minutes
- Energy efficient design – "Ultra-Guard" energy efficient fiberglass insulation throughout the cabinet – top, back, bottom, and doors retains heat and is a perfect compliment to the 304 stainless steel, 20-gauge polished interior, 24-gauge stainless steel interior with easy-to-clean covered corners. Back mounted airflow panel provides an efficient distribution pathway for airflow
- Top mounted electrical cord – prevents rolling over the cord or accidentally tripping on the cord while moving the cabinet
- Recessed handgrips on the _ and tall models offer effortless movement on the 5" casters, two fixed and two swivel with brake
- Magnetic chrome handle is easy to use and provides secure and tight closure on either the all stainless steel door or stainless steel door with a clear view gasketless Plexiglas™ pane. Door swing is a space saving 26"
- Top to bottom punched stainless steel uprights allow you to position the shelves where you want them
