You can create a lot of history in 75 years, and the team here at Lakeside understands that more than just about anyone. We were founded by a World War II Navy veteran who decided he didn't want to work for anyone else, and from those very first days until now, the same sentiment exists -- Lakeside can make it happen, and we're going to have fun doing it.

Now, that brings us to the stories. Being successful for so many decades as a "can-do" company doesn't just happen. You have to learn from the "can't dos" first. Our history here at Lakeside has led us from barbecue grills to wooden playhouses and from cadaver coolers to motorized wheelchairs. We've gone from the shores of Lake Michigan to the beaches of St. Croix, and we've had periods of time when we've focused internally and then opened the windows -- quite literally -- and listened to the outside world. There are hundreds of anecdotes in between, and all of them add up to a single point:

“ There are reasons and stories behind everything we manufacture, and they've helped us refine our products to be the best in the industry.
