

The **Lakeside Advantage**

L LAKESIDE®
Ingenuity On Wheels

Superior Lead Times

Prompt Quotes, Accurate Drawings, Reliable Ship Dates

Need a particular piece of equipment within a very limited time frame? Is your preferred manufacturer taking longer than expected to deliver your sustainable and durable mobile equipment? We are aware these can be major pain points for both foodservice and healthcare operations, which is why we're committed to providing the best with accurate and fast lead times.

We collaborate closely with you to determine your exact equipment needs and delivery timeline. Our team is dedicated to efficiency, ensuring top-notch communication between customer service, sales, engineering, and production departments. This seamless communication guarantees that your lead times are met.

Just as your operation thrives on success built through teamwork and communication, so does ours. We transfer this synergy to you, delivering the results you need when you need them.

Sustainable Materials

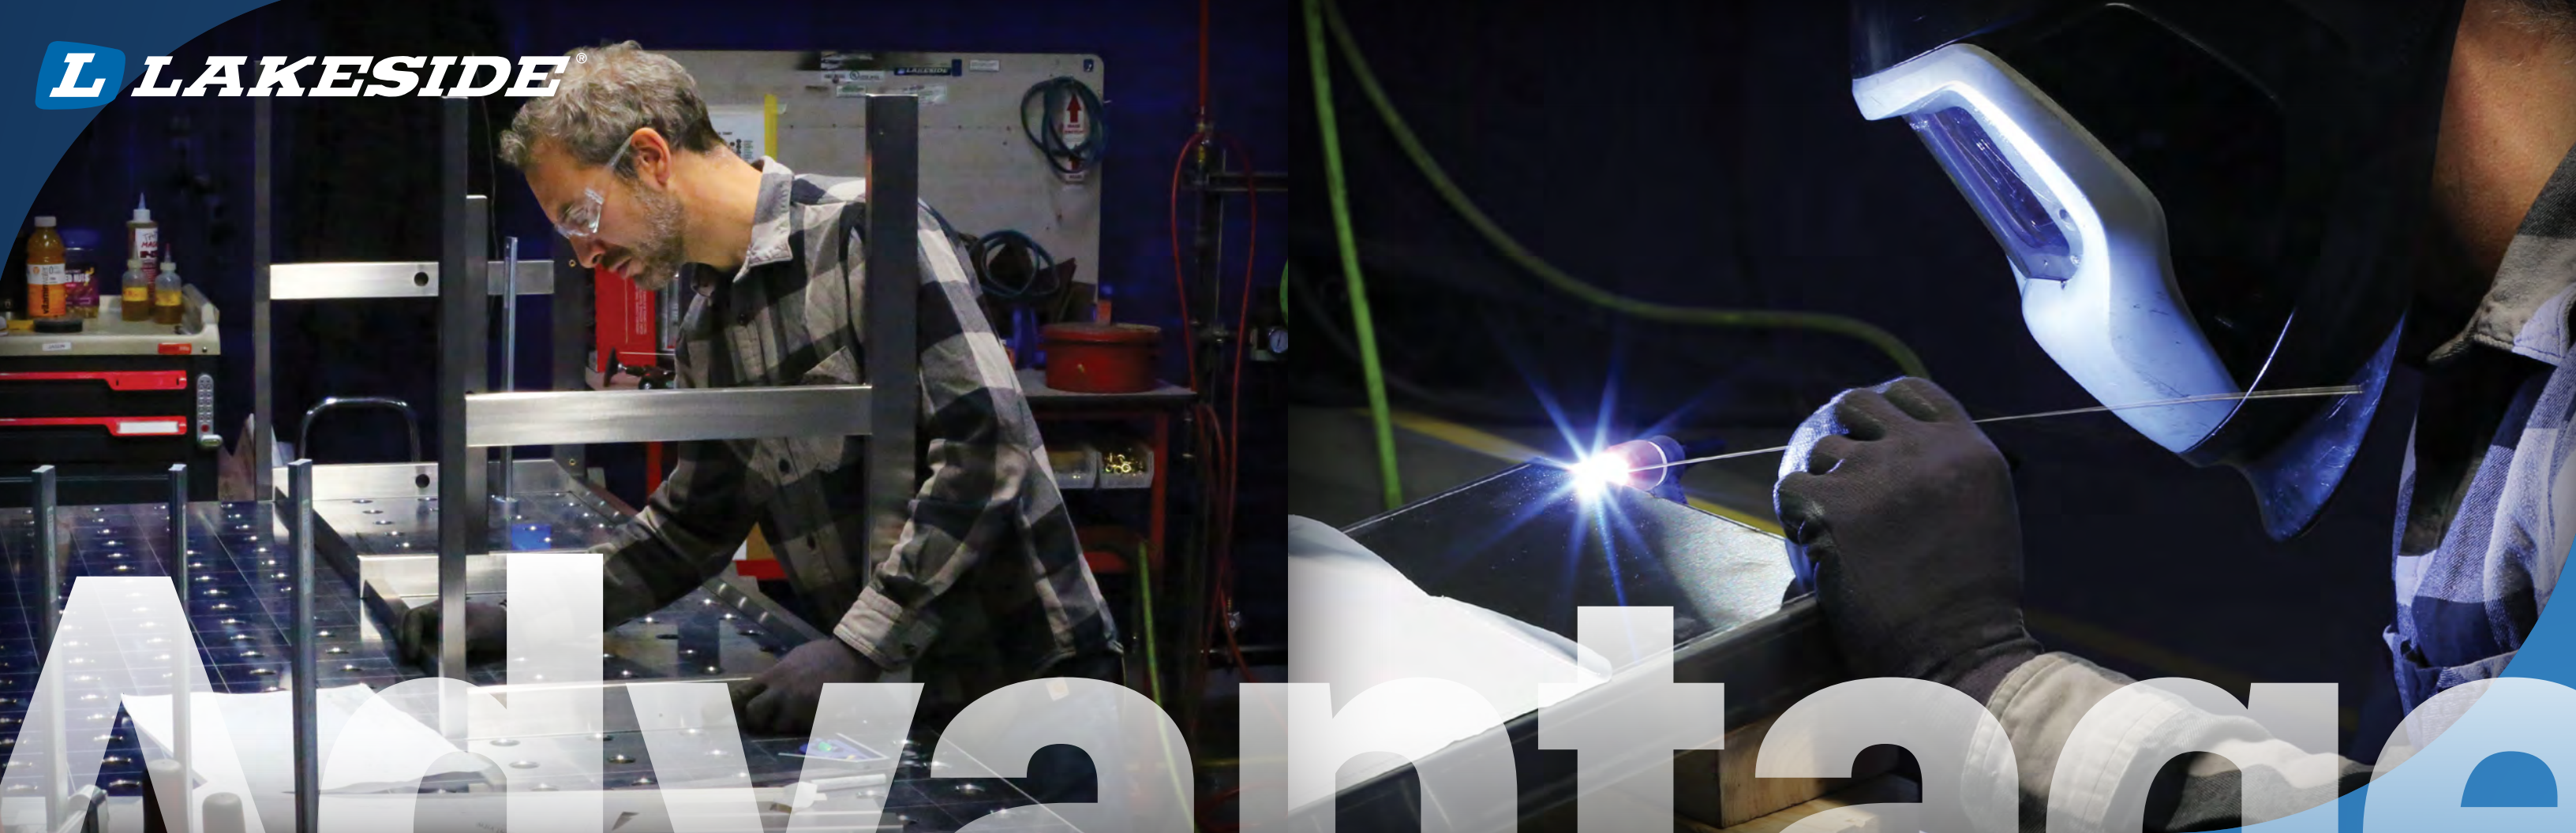

100% Recyclable Stainless Steel and Aluminum Components Yield Durable Products with a Long Service Life

Is it possible for foodservice and healthcare equipment to be both sustainable and durable? With Lakeside, the answer is yes. We are dedicated to protecting our shared environment by incorporating recycled stainless steel and aluminum into our products. This commitment not only ensures the durability and longevity of our equipment but also makes them fully recyclable at the end of their lifecycle—reducing waste and keeping more items out of landfills.

Every time you use one of our products, you're making a choice that benefits the planet. Whether you're serving hot meals to underprivileged K-12 students or transporting life-saving medical supplies from the loading dock, you are part of a movement to create a cleaner and safer world. Join us in our mission to sustain the environment while maintaining the highest standards of durability and quality.

American Made

Shorten the Supply Chain with a Domestic Manufacturer and Trusted Innovation Partner

Lakeside is located in beautiful Wisconsin and stands as a testament to the hardworking and skilled manufacturing workforce of the Midwest. This central location is not merely an aesthetic choice; it plays a crucial role in our operational excellence. By situating ourselves in the heart of America, we ensure a shorter, more efficient supply chain. The result? Faster and more reliable delivery times that our customers can count on, and a reduced carbon footprint.

Our commitment to quality assurance is second to none. U.S. manufacturers must adhere to stringent regulations and standards. This guarantees our products meet rigorous criteria for safety, durability, and performance. As a result, our consumers can trust the quality and reliability of every item that leaves our shop floor.

Choose American-made. Choose quality and reliability.
Choose Lakeside.

Design Excellence

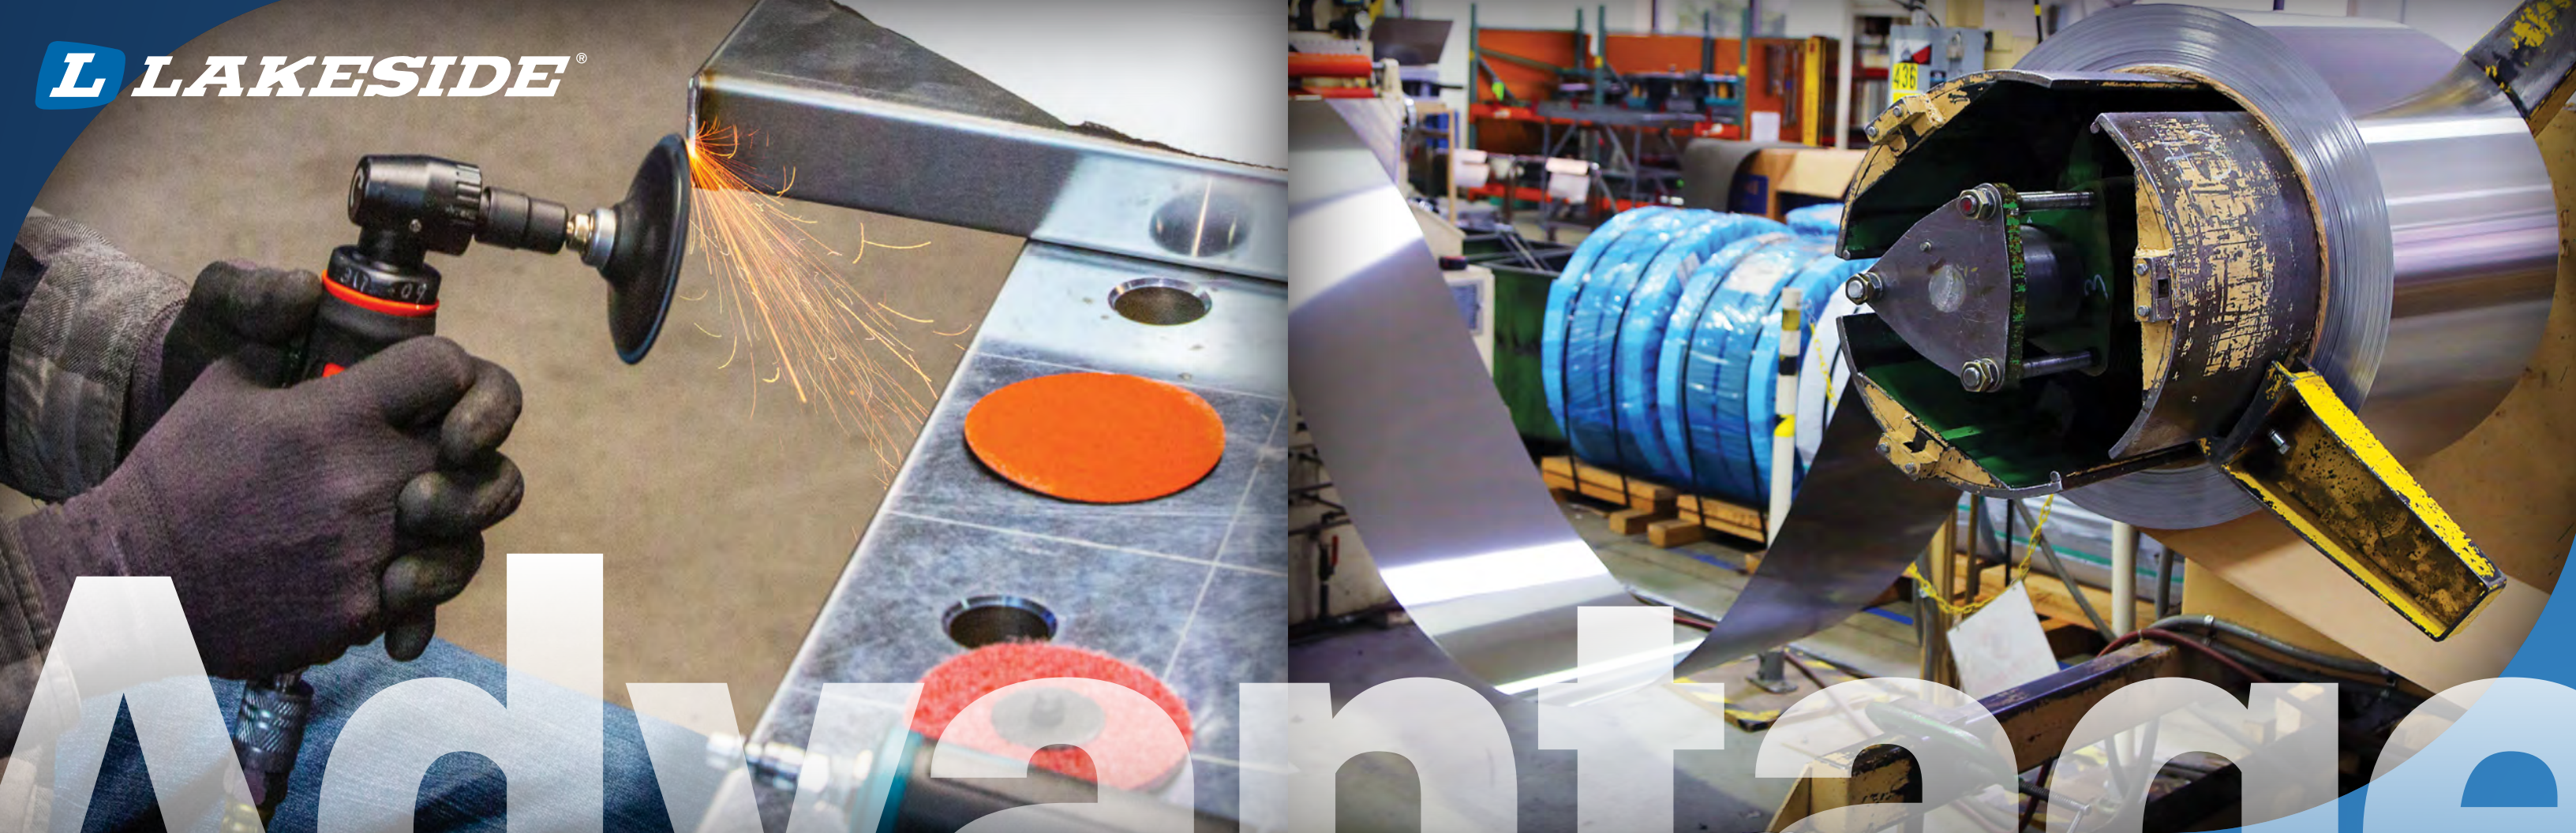

Setting the Standard for Safety, Productivity, and Durability – Since 1946

When your company is founded by a World War II Navy Veteran with a creative and independent spirit, those characteristics forever become part of your DNA. Our can-do attitude and commitment to finding tailored solutions have been our driving forces since day one.

From inventing the world's first stainless steel 311 Utility Cart to developing today's patented Push-Pull Utility Cart, our history is marked by constant learning, innovation, and breakthroughs. We never shy away from challenges; instead, we see them as opportunities to create the next revolutionary solution.

At our core, we believe there are no excuses for not attempting to solve a problem. We pride ourselves on our relentless pursuit of solutions for people like you.

Advanced Manufacturing

Assured Quality

Built to Last with Durable, Easy-to-Clean Stainless Steel – ISO 9001:2015 Certified

Mobile equipment can be a large investment, so Lakeside understands that longevity is expected. That's why we believe that durability and ease of cleaning should go hand in hand by using sustainable stainless steel for the majority of our items. This ensures they can withstand daily use without compromising performance. Our stainless steel construction saves you time on replacements and ensures you can keep working efficiently day in and day out. In fact, it's also easy to clean and sanitize, giving time back to your team so they can focus on more urgent tasks.

Again, our commitment to quality starts at the top and extends to you through passion, teamwork, and communication. Each of our departments—from customer service and sales to engineering and the factory floor—focuses on quality assurance. Strong communication and collaboration at every stage of the manufacturing process ensure that our products are free from defects and ready for immediate use.

Modifiable & Custom

Over 10,000 Standard Utility Cart Configurations and Custom Builds, No Minimums Required

At Lakeside, we specialize in creating customized solutions tailored to your operation's specific needs. Whether you need a slight modification to a standard product or a completely custom build, we've got you covered.

With an endless variety of accessories and standard configurations to choose from, we'll collaborate closely with you to identify unique requirements and challenges, ensuring the final product meets your exact specifications. We thrive on taking on new challenges. By working together, we'll help you design the perfect product that meets your precise needs.

Your vision drives us, and our goal is to provide you with an exceptional, personalized experience.

Let's create something special together.
