5. Durable Stainless Steel Construction
6. (2) 6" Swivel with Brakes; (2) 6" Motorized
7. Front Leg Bumpers

Uncover more information about this electric cart by scanning the QR code!

A Closer Look at the Features

Shift Into Power and Precision

Integrated Electric Hub Motor

Built inside the front motorized casters, the battery-powered integrated hub motor delivers efficient transportation with seamless transmission and enhanced power delivery. Navigate long distances and inclines with minimal strain.

Hot-Swappable 24v Batteries

Recharge fully in just 70 minutes and enjoy 2 hours of continuous use. Plus, battery changes are quick and easy. Keep your workday moving without interruptions!

Ergonomic Thumb Throttle

Forward and reverse capabilities allow precise speed adjustments, providing users with customizable, comfortable control and complete command of the path ahead.

Emergency Stop Button

Prioritize the safety of your staff with this quick and reliable halt mechanism. Once activated, the cart seamlessly converts into a manual push cart. To reset, twist the stop button outward.

700-lb. Capacity Hauls Heavy-Duty Loads

With a load capacity of 700 lbs. evenly distributed across its shelves, heavy-duty tasks feel weightless. Its all-welded stainless steel construction is durable, rust-resistant, and easy to clean.

ON/OFF Key

Quickly power up or shut down with a simple turn of a key – ensuring security by preventing unauthorized use when not in operation.

6" Swivel with Brakes and Motorized Casters

Castors allow smooth maneuverability around tight corners with precision. When loading and unloading, lock down the brakes on the casters. Swivel casters feature a thermoplastic rubber tread on a durable polyolefin core and are NSF certified. Motorized casters are crafted with a thermoplastic rubber tread on a sturdy aluminum core.

Front Leg Bumpers for Added Protection

Safeguard walls and equipment during transport with durable bumpers designed to provide extra peace of mind.
