

#B591

Faster Room Turns, Fewer Broken Dishes

Presort dinnerware at the point of service — not in a crowded back of house.

Lakeside Breakdown Carts keep your operation moving. Sort glasses, cups, silverware, and bus tubs right on the floor — then roll everything back with ease using tubular push handles on both sides.

Save Time & Labor — Angled shelves put glass and cup racks within easy reach, while a built-in food scraper with plastic waste bin cleans messes quickly and easily.*

Reduce Breakage & Drippage — Side and back rails secure bus tubs and silverware. Marine guard front edges contain drips.

Protect Your Banquet Room Floors — A built-in drain system with a clear plastic tube keeps floors dry and accidents at bay.

Explore how you can put a Breakdown Cart to work for your casino, hotel, or convention center by scanning the QR code!

Built for the spaces you work in every day.

*Food scraper and hanging waste bin(s) are optional but standard on models B591, B592, and B593.
