FOODSERVICE SOLUTIONS GUIDE

4900 WEST ELECTRIC AVENUE | WEST MILWAUKEE, WISCONSIN 53219 USA
(800) 558-8565 | INFO@ELAKESIDE.COM | WWW.ELAKESIDE.COM

You can create a lot of history in 80 years, and the team here at Lakeside understands that more than just about anyone. We were founded by a World War II Navy veteran who decided he didn't want to work for anyone else, and from those very first days until now, the same sentiment exists -- Lakeside can make it happen, and we're going to have fun doing it.

Now, that brings us to the stories. Being successful for so many decades as a "can-do" company doesn't just happen. You have to learn from the "can't dos" first. Our history here at Lakeside has led us from barbecue grills to wooden playhouses and from cadaver coolers to motorized wheelchairs. We've gone from the shores of Lake Michigan to the beaches of St. Croix, and we've had periods of time when we've focused internally and then opened the windows -- quite literally -- and listened to the outside world. There are hundreds of anecdotes in between, and all of them add up to a single point:

“There are reasons and stories behind everything we manufacture, and they’ve helped us refine our products to be the best in the industry.

UTILITY CARTS

Electric Utility Cart

Overcome Staff Shortages with the Lakeside 173670 Electric Utility Cart

HERE'S HOW...

POWER ASSISTANCE THAT WORKS WITH YOUR EVERY STEP

Enables smaller or understaffed teams to move heavy-duty loads, reducing strain and moving with ease.

CONTINUOUS PRODUCTIVITY

Easy to swap out batteries keep operations running smoothly, so short-staffed teams avoid costly downtime.

USER-FRIENDLY CONTROLS

Simplify training to ensure any team member, regardless of their physical stature, can quickly step in and maintain high productivity.

A Closer Look at the Features of the Lakeside 173670 Electric Utility Cart

Integrated Electric Hub Motor

Built inside the front motorized casters, the battery-powered integrated hub motor delivers efficient transportation with seamless transmission and enhanced power delivery. Navigate long distances and inclines with minimal strain.

Hot-Swappable 24v Batteries

Recharge fully in just 70 minutes and enjoy 2 hours of continuous use. Plus, battery changes are quick and easy. Keep your workday moving without interruptions!

Ergonomic Thumb Throttle

Forward and reverse capabilities allow precise speed adjustments, providing users with customizable, comfortable control and complete command of the path ahead.

On/Off Key & Emergency Stop Button

Quickly power up or shut down with a simple turn of a key – ensuring security by preventing unauthorized use when not in operation.

Prioritize the safety of your staff with this quick and reliable halt mechanism. Once activated, the cart seamlessly converts into a manual push cart. To reset, twist the stop button outward.

PUSH-PULL HANDLE™

Push-Pull Utility Cart

The Flexibility of Pushing or Pulling with the Ability to Tow Multiple Utility Carts

TOW MULTIPLE CARTS FOR PEAK EFFICIENCY

The optional stowable drawbar system lets you connect and tow multiple carts at once to reduce trips and manual labor.

LEAD FROM THE FRONT WITH FULL VISIBILITY

Pulling the cart from the front allows safer navigation with a clear view of your path.

ERGONOMIC PUSH-PULL HANDLE FOR COMFORT

Simplify training to ensure any team member, regardless of their physical stature, can quickly step in and maintain high productivity.

A Closer Look at the Features of the Lakeside 163421 & 170867 Utility Carts

Ideal for Transporting Heavy Loads

The durable 700-Lb. (300 kg) capacity is ideal for the continuous moving of heavy loads over most standard floor surfaces. All-welded stainless steel construction is easy to clean and sanitize.

Full Visibility

Stay out in front while pulling for full visibility of the path ahead and safe navigation of crowded spaces. Take full strides with the Push-Pull Handle and reduce ankle contact while pulling.

Transport Up to 3x More and Make 3x Fewer Trips

Save labor and make fewer trips by towing multiple carts using optional stowable drawbar system. The stowable drawbar system includes hitch receiver bushing to reduce friction and component wear with a convenient on-board storage for the optional drawbar when not in use.

Full-Height Tubular Handle

Hinged at bottom to swing out for easy pulling, and locks upright for pushing, adding to its ergonomic design

Utility Cart Selector

Check all boxes that apply, then add up your selections to find the best option.

TOTALS					

Load Capacity Calculator

1. What will this cart typically transport? (Estimate the weight of the load.)

Here are some examples with approximate weights:

- 2 cases of #10 cans of tomato sauce = 84 lbs.
- 2 bus tubs filled with 8 place settings = 70 lbs.
- 1 full size pan filled with mashed potatoes = 32 lbs.
- 1 18" x 26" x 8" box with 4 dz. flatware set-ups = 48 lbs.

Begin the calculator at 100 lbs., even if the weight is less than 100 lbs. Estimate the average weight per shelf of the loads the cart will be expected to transport, and then multiply by the number of shelves.

Add 100 if the load will be dropped onto the top shelf from a height more than 18".

Add 100 if the shelves are longer than 33".

2. What types of floor surfaces will the cart encounter on a daily basis? (Add all that apply.)

Here are some examples with approximate weights:

If the floor surfaces are only smooth vinyl tile or smooth indoor concrete, no additional.

Ceramic tile or carpet, add 100 to the weight.

Thresholds or uneven outdoor surfaces, add 300 to the weight.

3. How many hours per day will the cart be used? (Choose only one.)

If the cart is used less than 3 hours per day (light use), no additional.

4-9 hours, add 100 (moderate use).

10-15 hours, add 200 (heavy use).

More than 16 hours, add 300 (harsh environment).

TOTAL LOAD CAPACITY REQUIRED

Total load capacity is determined by assuming the load is distributed evenly on all shelves. (This calculator can also be found on our web site: www.eLakeside.com)

Standard Duty Utility Carts

Lightweight, Compact, and Built for Everyday Tasks

Simplify small-scale tasks with these durable stainless steel and easy to-manuever carts, tailored for environments where convenience and functionality are key. They can hold 3-4 cases of #10 cans stacked two high per shelf, depending on shelf size, and 6-8 steam table pans stacked flat, depending on depth.

SHELF SIZE	3-SHELF MODEL NUMBER	3-SHELF ALLERGEN AWARENESS MODEL NUMBER	WEIGHT CAPACITY
15-1/2 x 24"	311	311A	300 LBS
18 x 27"	322	322A	300 LBS

Medium Duty Utility Carts

Reliable Performance for Moderate Loads

Designed for increased capacity and durability, these stainless steel carts deliver dependable performance across various foodservice operations. They can hold 4-5 cases of protein, each weighing 30-40 lbs., or 4-5 cases of individually wrapped products stacked neatly in bins or trays.

SHELF SIZE	3-SHELF MODEL NUMBER	3-SHELF ALLERGEN AWARENESS MODEL NUMBER	WEIGHT CAPACITY
15-1/2 x 24"	411	411A	500 LBS
18 x 27"	422	422A	500 LBS
21 x 35"	444	444A	500 LBS
21 x 49"	459		500 LBS
21 x 35"	444ES		500 LBS

Heavy Duty Utility Carts

Built for Large-Scale Operations and Demanding Tasks

This category excels at supporting large-scale operations and handling outdoor transport needs. Made to perform throughout the day, these workhorses deliver heavy duty support in demanding environments. They can hold 5-6 milk crates (fitting side by side on larger shelves), 6-8 bags of rice (25 lbs. each) or 4-5 bags (50 lbs. each), and 20-25 sheet pans stacked flat.

21 x 49"	958	959	1000 LBS

Extreme Duty® Utility Carts

Engineered for Specialized Heavy Hauling

Built for extreme hauling, these stainless steel carts are built to perform in demanding environments and 24/7 specialized scenarios, including casinos, hotels, and correctional facilities. They can carry 15-20 bags of rice (25 lbs. each) or 10-12 bags (50 lbs. each), 40-50 sheet pans stacked flat, and 25-30 steam table pans stacked flat, depending on depth.

SHELF SIZE	2 SHELF - MODEL NUMBER	2 SHELF - MODEL NUMBER W/DUAL HANDLES	WEIGHT CAPACITY

Guard Rail & Deep Well Utility Carts

Hold Items Securely in Place During Transport

Lakeside’s Guard Rail and Deep Well Utility Carts are designed to reduce spills and breakage during transport. Featuring an integrated push handle and sound-deadening material under the shelves, they minimize vibration and noise. Guard Rail Utility Carts include front rails on all three shelves, while Deep Well Utility Carts offer 2-1/2" deep shelves to keep items securely in place.

DISPENSING

Open-Style Non-Heated Drop-In Plate Dispensers

Fit Plates Seamlessly

Economical in-counter, non-heated plate dispensers are available in two stacking heights, fitting standard and ADA-compliant counters for hidden, attractive dispensing with quick and easy cleaning and adjustment.

STANDARD MODELS

Standard models allow easy height adjustment by detaching and attaching springs without tools, making them a cost-effective choice when plate and bowl diameters are fixed, and china changes are infrequent.

ADJUST-A-FIT® MODELS

Adjust-A-Fit models feature a 3-1/4" hand-adjustable diameter for quick flexibility, making them ideal when plate or bowl sizes are unknown, and your china brand or styles change frequently.

Regular Non-Heated Mobile Plate Dispensers

Easy Adjustment For Dispensing Height Without Tools

Effortlessly transport and distribute non-heated plates right at the point of service. Available in 1-4 stacks with a 25” stacking height capacity for plates or bowls.

STANDARD MODELS

Standard models allow easy height adjustment by detaching and attaching springs without tools, making them a cost-effective choice when plate and bowl diameters are fixed, and china changes are infrequent.

ADJUST-A-FIT® MODELS

Adjust-A-Fit models feature a 3-1/4” hand-adjustable diameter for quick flexibility, making them ideal when plate or bowl sizes are unknown, and your china brand or styles change frequently.

Convection Heated Mobile Plate & Pellet Base Dispensers

Insulated to Conserve Energy

Enjoy the convenience of heating both plates and pellet bases in a single unit. Convection air ensures even heat distribution for efficient plate warming and consistent pellet base heating, maintaining safe food temperatures and improving meal quality. Each dish dispenser accommodates a 27" stack of plates with diameters ranging from 7 to 10-1/4", along with self-lubricating pellets for smooth operation. Duo-therm technology heats both in just 90 minutes.

Drop-In Cup & Glass Rack Dispensers

Simply Detach and Attach Springs as Needed

Lakeside's all-welded racks are perfect for transporting and storing 10 x 20" and 20" x 20" cup and glass racks. The vertical storage design is ideal for maximizing small spaces, while the stainless steel construction ensures durability and easy cleaning. Precision rollers for smooth, consistent dispensing, and no tools needed to adjust height.

Lakeside Drop-In Cup & Glass Rack Dispensers are designed to accommodate up to 12 half-size racks (10 x 20 inches) and 6 full-size racks (20 x 20 inches) perfectly. Available in a variety of rack capacities. All models are NSF listed.

STANDARD MODELS – 5 RACK		
DISPENSING SIZE	MODEL NUMBER	RACK CAPACITY
20 x 20", 10 x 20"	97725*	5 Full, 10 Half

A Closer Look at the Lakeside Modular Breakfasts Carts

Flat Shelving

Stainless steel flat shelves maximize space for even more tempting food options. Their sleek design ensures durability and easy cleaning, making them a practical and stylish choice.

Price Slider Clips

Product names and prices become crystal clear with easy-to-use slider clips, ensuring a smooth and efficient experience for both students and staff. Magnetic and designed for seamless attachment to shelf fronts.

Durable Stainless Steel Construction

Built to handle the demands of daily use, the sturdy stainless steel construction is resistant to wear and corrosion and easy to clean, making it the perfect blend between superior durability and economical value for busy K-12 foodservice environments.

Portable 5" All-Swivel Casters, 2 with Brakes

These expandable bushing casters easily glide through hallways and around tight corners with precision. Once a location is found, lock the brakes down and get serving. Perfect for dispersing large crowds in crowded serving areas, ensuring smooth, hassle-free movement every time.

A Closer Look at the Lakeside Electric Portable Bar System

Power It On

Start both the electric portable bar and back bar with the ON/OFF turnkey. Powered by 24v hot-swappable batteries, they're ready to go with just a 70-minute recharge offering up to 2 hours of uninterrupted operation.

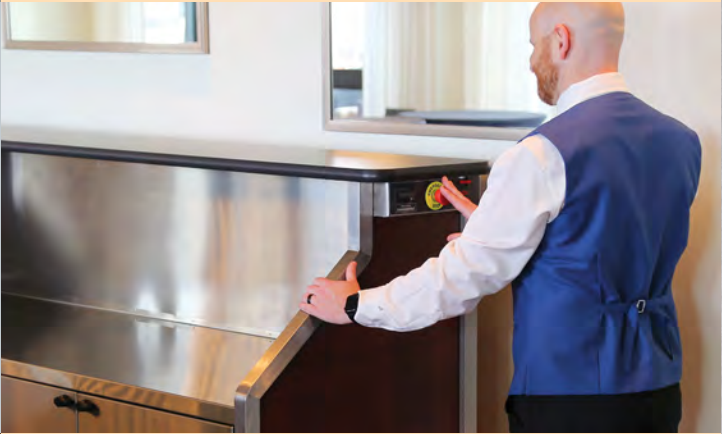

Enjoy Precision and Safety

Use the ergonomic thumb throttle on both bars for precise forward and reverse speed adjustments. For added safety, activate the emergency stop button. Once engaged, your electric bars convert seamlessly into manual portable bars.

Effortless Maneuvering

Move each bar smoothly across uneven terrain, position where needed, with minimal effort required. Once you've found your spot, lock the casters.

Electric Portable Bar System

Electrify Your Party Anytime, Anyplace, Anywhere

Take your events to the next level with the Lakeside Electric Portable Bar System, a game changer for the hospitality and events industry. Featuring power assist for effortless mobility and reliable performance, these 8 ft. electric bars are designed to impress and keep the party alive. Built to support up to 700 lbs. of liquor and supplies, they combine unmatched durability with sleek style. Available in portable bar and portable back bar models.

Universal Ledges with 6" Clearance	8585	(10) 20-3/4 x 25-1/2", 22 x 26-7/8", 23-1/2 x 29"

Transport and Delivery Cabinets

Save Time with Efficient Delivery

Ensure reliable storage and transport for sheet pans and trays with durable construction. Extruded sides prevent warping and flexing during transit, while an optional clear polycarbonate door panel enhances visibility. Choose aluminum for added strength without extra weight, or stainless steel for heavy-duty utility transport demands. All models are NSF listed.

TRANSPORT AND DELIVERY CABINETS – ALUMINUM MODELS

LEDGE SPACING SIZE	MODEL NUMBER	SHEET PAN CAPACITY
Extruded Channel Ledges with 1-1/2" Spacing	5527	20 Full Size
Extruded Channel Ledges with 1-1/2" Spacing	5529	32 Full Size
Extruded Channel Ledges with 1-1/2" Spacing	5531	40 Full Size

TRANSPORT AND DELIVERY CABINETS – STAINLESS STEEL MODELS

LEDGE SPACING SIZE	MODEL NUMBER	SHEET PAN CAPACITY

Project: Silverware Cart

Custom & Modifiable

Take a closer look at the Silverware Cart we custom-designed to meet the unique needs of a prominent university. Uncover the process behind the creation of this one-of-a-kind cart.

BACKSTORY

One of our sales reps for our Multiteria brand had been actively collaborating on an exciting project with a notable university. As part of its immediate needs, the university requested a customized Silverware Cart with finishes that would match its upcoming project with Multiteria. To fulfill this requirement, our sales rep reached out to us here at Lakeside.

Utilizing photos of the room featuring the equipment in need of replacing, as well as the preferred finish choices, we were able to create the perfect solution. The sliding shelves of the Silverware Cart were designed with cutouts, enabling easy restocking with prefilled cylinders, while also offering a more

ergonomic experience with slide-out functionality. By combining our expertise with the specific requirements of the university, we were able to deliver a custom solution that aligned with its vision.

DESIGN/CONSTRUCTION

- 430 Grade Stainless Steel Welded Construction
- Corian Solid Surface Top in Carrara Lino
- Cutouts in Top Hold (20) Silverware Cylinders and (1) 1/3 Size Pan
- Laminated Exterior Panels in Wilsonart Jacobean Oak Y5006
- Locking Doors
- (2) Sliding Mid-Shelves with Cylinder Cutouts
- Black Powder Coated Skirting
- Black Corner Trim and Bumpers
- (4) 5" Swivel Casters, (2) with Brakes

Fast, Affordable, No Minimums

STEP 1: CONTACT US

Don't see what you need? Tell us your vision.

STEP 2: FEEDBACK

Work with our experts to find a practical & affordable solutions to meet your needs.

STEP 3: DRAWING

Our team produces line drawings to make sure we are on the right track.

STEP 4: QUOTE

When a design is agreed upon, we'll provide a quote.

STEP 5: PRODUCTION

Built & shipped 6-8 weeks after order is placed.
*Dependent on order size

STEP 6: SERVICE

Benefit from post-sale support to ensure satisfaction.
