

The Lakeside Advantage

Stealth Tray Delivery Carts

Create a Quiet, Healing Environment

Stealth Tray Delivery Carts support the healing process with quieter tray delivery, dependable performance, and easy-to-clean, NSF-listed stainless steel construction.

QUIET DELIVERY FOR PATIENT COMFORT

Thoughtful design reduces vibration and transport noise to support a quieter, more healing environment.

SUPPORTING PATIENT SATISFACTION

A calmer environment supports the patient experience and helps drive CMS HCAHPS scores.

EASY TO CLEAN AND SANITIZE

Stainless steel surfaces and removable tray ledge panels make cleaning and sanitization easier while supporting strict hygienic standards.

Quiet-By-Design Features

1. Formed 1-piece ledge panels eliminate seams and joints.
2. Friction cam ledge mounts reduce noise when full or empty.
3. Isolation pads between components absorb movement in transit.
4. Formed side panels minimize vibration noise.
5. Wide, cushion-tread casters, featuring neoprene mount pads, provide a smoother ride.
6. Pivot travel pressure latch minimizes door movement during transport.
7. Vertical tubular handles provide comfortable, secure cart guidance.
8. Doors open 270° with magnetic closure and unobstructed hold-open access.
